

Houseproud

The safe way for homeowners and leaseholders to raise money for repairs, improvements or adaptations

The Home Improvement Trust

If you're 60 or over, or disabled, or have a disabled person living with you, your council's Houseproud equity release scheme could be ideal.

The cost of work can be quite small compared to the value of your house. And with Houseproud, you have a safe way of raising the finance.

Better still, your council can help you get the work done, too. And that means even more peace of mind.
