

The safe way for older homeowners to repair, improve or adapt their homes

If you're 60 or over, or disabled, or have a disabled person living with you, your council's Houseproud equity release scheme could be just what you've been looking for.

The cost of work can be quite small compared to the value of your house. And with Houseproud, you have a safe way of raising the finance.

Better still, your council can help you get the work done, too. And that means even more peace of mind. Why not phone for details and a free video/DVD.
